

Enterprise Pipeline

Privacy

October 2020

The Enterprise Project is a program to develop additional offshore natural gas reservoirs in the Victorian Otway Basin. The potential reservoirs are located offshore, up to 3 nautical miles (5.55 km) from the coastline, while the well site will be located onshore near Port Campbell. If Beach determines that the exploration well is commercially viable, a pipeline will be constructed to flow the raw gas for processing at the nearby Otway Gas Plant, for supply to the Australian domestic gas market.

Beach is committed to protecting the privacy of individuals' personal information. Throughout consultation on the Enterprise Pipeline Project, information exchanged with landowners, occupiers and other stakeholders (individuals) will be managed in line with Beach's Privacy Policy.

"Personal information" is information or an opinion about an identified individual, such as names, addresses, phone numbers or emails, information following enquiries and communication between Beach and an individual.

All personal information exchanged on the project will be collected and used in line with the *Privacy Act 1988* (Commonwealth) (the Privacy Act) and the Australian Privacy Principles that are contained in that Privacy Act.

Beach's full Privacy Policy is available at www.beachenergy.com.au/privacy-policy/

Collecting your personal information

Beach may collect personal information about individuals in a variety of ways, including when individuals contact Beach, or when Beach contacts the individual, in person or electronically. Beach will only collect personal information about individuals' where the information is reasonably necessary for one or more of Beach's functions, operations or activities, or to comply with the law.

About Beach

Beach Energy is an ASX listed oil and gas, exploration and production company headquartered in Adelaide. It has operated and non-operated, onshore and offshore, oil and gas production from five production basins across Australia and New Zealand and is a key supplier to the Australian east coast gas market.

In January 2018, Beach acquired permits and operational assets in Victoria through its acquisition of Lattice Energy Limited. As Lattice is a wholly owned subsidiary of Beach Energy, all assets on the project will be operated under the Lattice name, including all applications for regulatory approvals, such as the Pipeline License. Information sheets and other associated consultation materials and activities use the Beach Energy name and branding.

Storing your personal information

To protect the rights of both parties involved in the consultation process, records of all contact between Beach and the individual during the Project are maintained by Beach. Information exchanged during the Project will be held in a system for recording and managing important and confidential stakeholder information such as correspondence, agreements, records of contact, feedback, complaints and claims records and resolutions and incident records. Beach will provide monthly reports to the Department of Environment, Land, Water and Planning (DELWP) containing consultation with stakeholders, including particular references to any complaints or grievances. Reporting will be undertaken from initial consultation with stakeholders, landowners and occupiers through to completion of the regulatory approval process, providing consent of the Construction Environmental Management Plan (CEMP) and safety management plans and subject to a pipeline licence being issued. From then, reporting will be in accordance with the CEMP or other management documents.

Using your personal information

Beach may collect and use personal information on the Enterprise Pipeline Project in order to:

- Provide individuals with information about the Project;
- Support the design and execution process of the Project;
- Minimise potential impacts to individuals;
- Respond to inquiries, feedback, concerns or claims on the Project;
- Discuss other matters relating to the Project with individuals;
- Assist ongoing pipeline operations and maintenance.

Organisations which Beach may disclose personal information to on the Project may include:

- Government agencies or regulatory authorities, where required;
- Related bodies corporate of Beach;
- Beach's suppliers, service providers, professional advisers and agents;
- Joint Venture partners;
- Anyone to whom Beach's assets or business (or any part of it) is transferred;

- Where necessary to protect the rights or safety of any of its employees or a third party;
- Where an individual to whom the personal information relates has consented to the disclosure; or
- Where otherwise required or permitted by law.

Accessing your personal information

An individual can request to seek access to, and update or correct, any personal information that is being held by Beach about that individual. There are certain circumstances under the Privacy Act where Beach will not grant an individual such access, where this access may have unreasonable impact on the privacy of others, where it would reveal commercially sensitive information about the organisation or where providing access would be unlawful. Beach may need to verify an individual's identity prior to providing access to their personal information.
